

# RHYTHM TRAIN GAME

Printable designed by Joy Morin

## Rhythm Train game

a music game for 1 or more students

### Materials:

- Rhythm flashcards (if you don't have any, you can purchase a pdf download at [ColorInMyPiano.com/shop/](http://ColorInMyPiano.com/shop/)).
- Printed train cards (of the engine and the caboose).

### Gameplay:

Ask the student(s) to randomly choose 2 or 3 rhythm cards with the same time signature. First, make sure that the student(s) are able to accurately clap each rhythm card separately. As they master each card, they may add it to the train behind the engine, with the caboose at the end. When all the cards have been added to the train, ask the student(s) to clap the entire rhythm. Challenge the student to see how many rhythm trains they can make, or assign the student to make a rhythm train every day at home.
